WORK EXPERIENCE

PROSA Danish IT Union

Full-time, Organizer

NOV 2024 – PRESENT

- Strengthened communication, relationship-building and member engagement across the nationwide IT workforce.
- Gained insight into IT-industry structure, labor rights and tech-sector unionization.
- Laid the foundation for an IT career through strategic organising responsibilities.

UNICEF Denmark

Fundraiser

OCT 2023 – OCT 2024

- Engaged diverse audiences to secure donations supporting UNICEF programmes.
- Honed persuasive storytelling and communication skills to exceed fundraising targets.
- Deepened understanding of non-profit operations and sustainable financing.

Telia

Full-time, Customer Service & Sales Representative

SEP 2022 – SEP 2023

- Delivered customer support and upsold telecom products; set a single-day sales record.
- Awarded *Lion of the Week* for best weekly KPIs.
- Promoted to Sales Consultant, sustaining top performance through persistence and teamwork.

Skorpeskolen Private School

Full-time, Pedagogical & Kitchen Assistant

AUG 2021 – JUL 2022

- Prepared daily meals for 350 pupils, consistently meeting strict deadlines.
- Ensured kitchen hygiene and organisation in a three-person team.
- Assisted in after-school care, fostering positive relationships with children.

Silvan

Part-time, Service Employee

NOV 2018 – AUG 2021

- Provided checkout and shop-floor service, advising customers on DIY products.
- Maintained shelves and stock accuracy during peak periods.
- Praised for reliability, diligence and customer-centric approach.

EDUCATION

Computer Science, University of Copenhagen (BSc ongoing)

COPENHAGEN SEP 2023 – PRESENT

Helsingør High School (STX)

HELSINGØR 2019 – 2021

Majors: Biology (A), Chemistry (B), Mathematics (A)

PROJECTS

Breakout Game

UNIVERSITY OF COPENHAGEN SOFTWARE DEVELOPMENT 2024

Extended a substantial legacy code-base to deliver a feature-complete Breakout clone. Pair-programmed new modules for collision detection, score-keeping and power-ups; added unit tests and CI workflow, and refactored over 2 000 LoC for readability and performance.

C, Git, Unit Testing, Pair Programming

Fasto Compiler

UNIVERSITY OF COPENHAGEN PROGRAMMING LANGUAGES 20242025

Implemented core compiler stages: lexical analysis, recursive-descent parsing, symbol-table management with variable shadowing, semantic checking and IR generation. Achieved full pass rate on reference test-suite while gaining in-depth knowledge of compiler architecture.

Compiler Theory, Parsing

Database-Backed Web Application

UNIVERSITY OF COPENHAGEN DATABASES 2025

Designed and built a full-stack web app: responsive front-end and PostgreSQL backend. Wrote complex SQL queries, implemented key functionalities.

SQL, Flask/Express, HTML CSS JS, Full-Stack Development
